- Network Design & Implementation

Specialized Simulation Products

- Virtual Simulation Training Tools
- Government, Public Safety & Entertainment Applications
- Enhanced Safety & Training Platforms

Company Overview

Founded in 2013, SpinCube Inc. (SpinCube) is a certified Small Business Enterprise (SME) headquartered in Clark Township, Union County, NJ. For over 13 years, SpinCube has been a trusted Managed Services Provider (MSP) and Value-Added Reseller (VAR) delivering advanced, reliable, and secure IT solutions.

We specialize in creating customized technology environments that enable clients across industries, including government, healthcare, public safety, law, and SMBs, to optimize efficiency, reduce risk, and maximize return on investment. Unlike “canned solutions,” SpinCube partners closely with customers, acting as an extension of their IT team to design, deploy, and manage mission-critical systems.

Differentiators

Proven Expertise: Over 44 years of IT leadership by President Alberto Scalia, including 16 years supporting 90,000+ endpoints at AIG.

Certified Talent: Microsoft, Citrix, Cybersecurity, Fortinet, Bitdefender training and certifications.

Scalable Workforce: Core staff of 10+ supported by a partner network of 450+ MSPs nationwide for large-scale projects.

Custom Solutions: Tailored IT environments—not one-size-fits-all—ensuring alignment with each client’s operational goals.

Certified Data Centers: Access to ISO 9001, HIPAA, and FEDRAMP-certified facilities.
